Addendum

May 25, 2021

To: IFFR Worldwide Membership
From: World President, George Chaffey

San Diego, California. Miramar Marine Corps Air Station. New photos and information just arrived on the San Diego Fly-In and our visit to the Miramar Marine Corps Air Station. In addition to thanking organizers Emidio DelConte, Doreen Freedman and Section Chair Penelope Cornwall for the entire event, special thanks to Curt Goldacker, who got us access to the state-of-the-art simulators for the F/A-18 Super Hornet and the MV-22 Osprey. We could not take cameras inside, so outside photos are the only “proof” we were there.

New IFFR Members. New members are critical to IFFR's future. Southwest Section Chair, Penelope Cornwall, initiated monthly section meetings (following the UK and Scandinavian sections). It has resulted in a number of new members, including younger members and new pilots. Two of them received their IFFR "wings" at the Friday Night dinner.... Jennifer Strong and Tom Bryant. Monthly section meetings work! Consider them.

Annual General Meeting. Save the date...Tuesday **June 8** (Wed. June 9 for the Australasia-Asia Region). World Secretary, Ian Jenner, has emailed you all to register for the AGM, this being necessary for participation. Once you have registered, you will automatically receive your unique log in to join the meeting, which is being held by Zoom.

As PWP Phil always says: Fly Well, Fly Safe, Fly Often.

Tail winds to ya',

George
